

Saturday June 29th 10:30am to 12:00 Irvine Great Park Farm Food Lab Summer scionwood exchange. Anything Garden related exchange. Bring old gardening books, pipes , tubing, tools whatever you are no longer using that someone else could use. This is only for plants that can be grafted or propagate in the summer. Examples are Avocado, Cherimoya and Attamoya , Loquat, Dragon fruit, Sapote (s) , Surinam Cherry , Ice cream bean.

While Citrus and Curry can be grafted at this time, do not bring any of them due to the disease they are susceptible to.

All participants get some 3 gallon black nursery pots And one white food grade bucket with lid. (while supplies last. We will also have a number of free seed packets, Bring cuttings of plants that others can use, **Make sure the groups of cuttings are properly labeled so people will know what they are.** Typical propagation methods are Grafting, Cutting planted in soil, Seeds

Meet others interested in gardening. Get rid of Gardening stuff you no longer need others may use.

Brought by South OC California Rare Fruit Growers <https://southoccrfg.org/exchange-event/>
